A single slipped tile might not look like much from the pavement, yet it can let in enough water to stain a ceiling and soak loft insulation surprisingly quickly. Cardiff roofs face a hard life, with a wet climate, Atlantic winds, driving rain and freeze and thaw cycles all taking their toll through the year. Redland Roofing Cardiff is an independent, family-run roofing business from South Wales, and for over 30 years we have been repairing roofs across Cardiff and South East Wales from our base in Rumney, east Cardiff. Most of the repair calls we receive fall into three groups. Leaks come first, and the cause is not always where the water appears inside. Damaged or missing tiles, cracked flashing around chimneys and skylights, blocked gutters, worn valleys, failed lead work and cracked flat roof surfaces or opened joints are all common culprits. Slipped, broken and missing tiles are the second group, often loosened by age or high winds. Storm damage is the third, and it can mean anything from a few lifted tiles to ridge tiles, dry verge or flashing that has been torn away. As experienced roofers in Cardiff, we trace the problem back to its source rather than simply patching the https://troyfdpw984.northstarcolumn.com/posts/roofers-cardiff-guarantees-and-insurance-explained symptom. Every repair starts with a free, no-obligation assessment. We look at the roof properly, explain what we have found in plain language and show you photos, and sometimes videos, of the problem so you can see it for yourself. As a rough guide from our own FAQ, minor repairs such as replacing a few broken tiles typically start from around £150 to £300, while more significant work like storm damage or flashing repairs tends to run from £300 to £800 or more. Every roof is different, so we always confirm the cost in a clear written quote with no hidden costs. We repair Victorian terraces in Roath, Cathays and Canton, interwar semis in Rhiwbina and Whitchurch, and newer homes in Pontprennau and Thornhill.
