The puck bounces randomly down the board up until it lands in one of the landing zones at the bottom, each consisting of a multiplier. If the puck arrive at a "DOUBLE" worth, all multipliers at the bottom of the wall double, and the puck is dropped again for even greater stakes.

- **The Process:**
 - Players need to choose one of 3 flippers (Green, Blue, or Yellow).
 - The host spins the huge wheel.
 - Whichever section the selected flipper points to when the wheel stops is the multiplier awarded to the gamer.
 - Much like Pachinko, if the wheel stops on "DOUBLE" or "TRIPLE," all multipliers on the wheel increase tremendously, and the wheel spins again-- scaling as much as an optimum possible multiplier of 20,000 x.
