- **Stylized Art Styles:** Many successful video games use abstract, cartoonish, or gothic scary art designs (such as satanic forces, cyborgs, or wooden mannequins) rather than reasonable human avatars.
- **Non-Violent Consequences:** Instead of death, losing a digital round typically leads to cartoonish surges, losing in-game currency, or needing to perform a ridiculous penalty in a celebration game.
- **Age Ratings:** Most of these video games bring "Teen" or "Mature" ratings to guarantee they remain out of the hands of young kids.

- **Very Little Intrusive Ads:** A tidy interface that doesn't disrupt the mounting tension of the game with unexpected pop-ups.
