What is Crazy Time?

At its core, Crazy Time is a live dealership video game show hosted by charismatic presenters in a lively, modern studio. The central feature of the video game is a huge, upright mechanical wheel divided into 54 sectors. Players position bets on the segments where they believe the wheel will stop.

What sets Crazy Time apart from traditional table video games is its combination of RNG (Random Number Generator) slots and live interaction. Every single spin of the primary wheel is accompanied by the "Top Slot," a mini-slot device situated above the wheel that can appoint random multipliers to specific wagering sectors, drastically increasing the possible payment.

The Game Segments Explained

The 54 sectors on the wheel are split in between numbered bets (1, 2, 5, and 10) and four unique reward rounds. Here is how the wheel is distributed:

Segment/ Bonus Variety of Segments on Wheel Payment/ Multiplier Potential **Number 1** 21 1:1 **Number 2** 13 2:1 **Number 5** 7 5:1 **Number 10** 4 10:1 **Coin Flip** 4 Variable (as much as 5,000 x) **Cash Hunt** 2 Variable (up to 10,000 x) **Pachinko** 2 Variable (approximately 10,000 x) **Crazy Time** 1 Variable (approximately 20,000 x)

The Four Immersive Bonus Rounds

The primary motorist of enjoyment in Crazy Time is its 4 benefit games. When the wheel stops on a perk section, all players who positioned a bet on that section are transferred from the main studio into a distinct augmented-reality minigame.

1. Coin Flip

The most basic of the benefit rounds, this video game includes a digital coin with a red side and a blue side.

- **How it works:** Each side is assigned a random multiplier before the flip. The coin is instantly flipped by a device, and whichever side lands face up awards the matching multiplier to the gamer's bet.

2. Money Hunt

This reward round takes gamers to a huge virtual shooting gallery screen featuring 108 random multipliers concealed behind various symbols (like a cactus, a target, or a constable's hat).

- **How it works:** Players are provided a restricted quantity of time to aim and fire a cannon at a symbol of their option. As soon as the timer expires, all signs reveal their surprise multipliers, and the player collects the multiplier they strike.

3. Pachinko

Inspired by the traditional Japanese arcade game, Pachinko includes a radiant, vertical wall filled with physical pegs.

- **How it works:** The host drops a radiant puck from the top of the wall. As the puck waterfalls downward, bouncing off the pegs, it eventually lands in one of the landing zones at the bottom. Each zone includes a multiplier or a "DOUBLE" sign, which doubles all multipliers on the board and triggers a re-drop.

4. Crazy Time

The ultimate reward round takes players behind a red door into a surreal, brilliantly colored virtual wonderland including an enormous secondary wheel.

- **How it works:** Players should choose among 3 flappers (Green, Blue, or Yellow). The host presses a huge red button to spin the huge wheel. Whichever segment the selected flapper points to when the wheel stops is the multiplier awarded. If the wheel lands on "DOUBLE" or "TRIPLE," all multipliers on the wheel are doubled or tripled, and the wheel spins once again up to a maximum cap of 20,000 x.

Key Features That Make Crazy Time Stand Out

Crazy Time's enormous appeal is not a mishap. Advancement Gaming utilized several design approaches to guarantee the video game remains engaging:
