Coin-Flip Style (Red/Black)	2 sectors (or 3 with a rare perk)	Low-Moderate (~ 3-- 5%)	Even cash on primary colors

- **The Paroli System (Reverse Martingale):**
 - *How it works:* You double your bet after every win, trying to profit from winning streaks while keeping losses little (resetting to the base bet after a loss).
 - *The Risk:* A single loss erases the collected profits of the streak.
- **The D'Alembert System:**
 - *How it works:* A much safer, progressive system where you increase your bet by one system after a loss and decrease it by one unit after a win.
 - *The Risk:* Slow development implies recuperating from deep deficits takes a very long time.
