The Top Slot Feature

Before every spin of the main wheel, a two-reel slot device positioned straight above the wheel-- understood as the **Top Slot**-- spins concurrently.

- **Reel 1:** Displays one of the wheel sectors (a number or a bonus game).
- **Reel 2:** Displays a multiplier value (ranging from 2x approximately 50x).

If the symbol on the first reel aligns horizontally with the multiplier on the 2nd reel, that multiplier is applied to the corresponding section for that spin. If the primary wheel lands on that particular sector, any wins or perk round payouts are quickly improved by the multiplier. This feature can lead to enormous win capacities, especially when integrated with the game's high-tier perk rounds.
