5.1 Can I get a "StatTrak" or "Souvenir" version from low-cost cases?

Yes. Every case, regardless of rate, includes a possibility to produce a StatTrak variation of a Mil-Spec product and, in many cases, a Souvenir version. The probability remains the like for any other case.

5.2 Are inexpensive cases less likely to include valuable Covert skins?

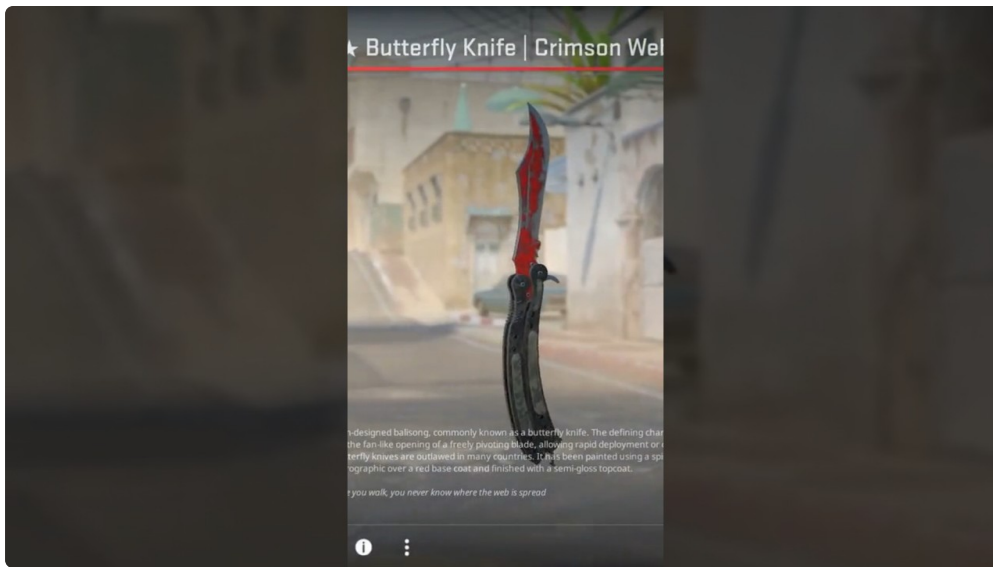

No. The underlying RNG equals for all cases. The rarity distribution (Mil-Spec, Restricted, Classified, Covert) corresponds; the cost of the case itself does not affect the drop rates.

5.3 Is it safe to purchase inexpensive cases from third-party sites?

While some third-party markets are respectable, they lack the purchaser defense provided by Steam. To minimize threat, purchase just from the Steam Community Market or licensed resellers.

5.4 Do low-cost cases ever go on sale?

Valve sometimes discounts older cases during seasonal sales or special events. Keep an eye on the Steam store for limited-time offers.

5.5 What takes place if an inexpensive case is gotten rid of from the game?

If a case is retired, it becomes unavailable for purchase through the in-game "Armory" but can still be traded on the SCM. Costs for retired cases can increase due to shortage, but they might likewise become unimportant as brand-new content replaces them.
