Generally, opening a case in CSGO was a singular affair: you buy a secret, open a case, and hope to the RNG (Random Number Generation) gods for a knife or hidden skin.

Case battles change this concept by introducing multiplayer competition. On a case field of honor, 2 or more gamers pool their resources to open the specific same cases concurrently. The guidelines are simple:

1. **The Setup:** Players pick a set of cases and agree on the number of individuals (typically 1v1, 1v1v1, or 2v2 team battles).
2. **The Opening:** Everyone opens the selected cases in real time.
3. **The Payout:** At the end of the battle, the total value of all the skins come by all players is determined. **The gamer (or group) who opened the greatest total skin value wins the entire lot.**

If you win, you stroll away with not just your own drops but also the drops of your opponents. If you lose, you lose everything you take into the battle.
