Ask most people what they picture when they think of Rhiwbina, and the interwar semis and roof inspection Cardiff the Garden Village will come up quickly. Many of these homes have stood for the best part of a century, and after decades of Welsh wind and rain their roofs often need some attention. Redland Roofing Cardiff, an independent, family-run roofing business from South Wales, has spent over 30 years repairing and replacing roofs across Cardiff and South East Wales, and the team knows the kind of problems that crop up on a typical Rhiwbina semi. Older semis tend to show their age in a handful of familiar ways. Tiles slip or crack, ridge tiles loosen, and the mortar and flashing around chimney stacks break down after years of freeze-thaw cycles. Gutters block and overflow, and the valleys where roof slopes meet can wear through. Many Rhiwbina homes have also gained flat-roofed rear extensions, dormers or garages over the years, and those surfaces can crack or open up at the joints. For minor repairs such as replacing a few broken tiles, the company's own guide puts costs from around £150 to £300, while more significant work such as storm damage or flashing repairs is around £300 to £800 or more. These are rough guides only, and a free quote gives the true figure for your roof. Each job starts with a proper look at the roof. The problem is explained clearly, photos are shared so you can see exactly what needs doing, and you receive a written quote with transparent pricing and no hidden costs. Honest advice is part of the service, and Redland Roofing Cardiff will not push for a replacement if a repair will solve the problem. Where a full re-roof is the right answer, a standard Rhiwbina semi typically takes two to four days, weather permitting, with the roof left watertight at the end of each working day. Customers in Whitchurch, Llanishen and Birchgrove receive the same service.
