What is the Crazy Time Demo?

The Crazy Time demo is a simulation of the popular live gambling establishment game show. While Evolution Gaming's flagship titles are generally hosted live by real dealerships and transmitted from state-of-the-art studios, a true "free-play" demonstration enables gamers to spin the virtual wheel using dummy credits.

Playing in demonstration mode reproduces the exact mathematical design, RTP (Return to Player), bonus round sets off, and user interface of the real-money game. It provides a safe environment to discover the ropes.

Why Use a Demo Version?

- **No Financial Risk:** Players can evaluate strategies and discover the rules without losing a single cent.
- **Understand Complex Bonus Rounds:** Crazy Time features 4 distinct perk games. Experiencing them in a simulated environment helps gamers comprehend how multipliers accumulate.
- **Acquaint with the Interface:** The wagering grid can look overwhelming initially glimpse. The demonstration enables users to practice placing bets quickly before the timer runs out.

Anatomy of the Wheel: Segments and Payouts

To master Crazy Time, one must initially understand the wheel. The giant, 54-segment wheel is the centerpiece of the game. Each section represents a particular number or a bonus offer game.

Sector Type Number of Segments on Wheel Payment/ Function **Number 1** 21 Pays 1:1 **Number 2** 13 Pays 2:1 **Number 5** 7 Pays 5:1 **Number 10** 4 Pays 10:1 **Coin Flip** 4 Triggers the Coin Flip Bonus Game **Money Hunt 2** Activates the Cash Hunt Bonus Game **Pachinko** 2 Activates the Pachinko Bonus Game **Crazy Time** 1 Triggers the supreme Crazy Time Bonus Game

As seen in the table above, the numbered sections appear most frequently on the wheel, offering smaller sized, more constant wins. On the other hand, the bonus offer rounds are much rarer-- with the sought after *Crazy Time* sector appearing just once-- however they hold the potential for life-altering multipliers approximately 20,000 x.

The Top Slot: Doubling the Excitement

Above the primary money wheel sits the **Top Slot**, a tiny two-reel slot device that spins all at once with every round of the main wheel.

- **How it Works:** The left reel arbitrarily picks a bet spot (a number or a reward game), while the ideal reel chooses a random multiplier (ranging from 2x to 50x).
- **The Result:** If the horizontal Top Slot lines up the correct bet spot with a multiplier, that multiplier is used to the winning segment for that spin. If a bonus round is selected, the multiplier enhances all multipliers inside that bonus video game.

Practicing in a Crazy Time demo casino permits players to observe how regularly the Top Slot hits and how it dramatically modifies the volatility of the game.

Diving Into the Four Bonus Games

The real magic of Crazy Time happens in its four interactive benefit rounds. This is where the greatest payouts are attained. In demonstration mode, players can activate and take part in these rounds just as they would in a real-money gambling establishment.

1. Coin Flip

- **The Setup:** An easy red and blue coin is flipped by the live host (or a mechanical arm).
- **The Mechanics:** Before the flip, both sides are appointed random multipliers. Whichever color lands face up awards the player that matching multiplier.

2. Cash Hunt

- **The Setup:** A giant screen featuring a shooting gallery with 108 random multipliers hidden behind different signs.
- **The Mechanics:** Players are offered a cannon crosshair to aim and contend a symbol of their choice before time goes out. When the timer ends, all signs expose their surprise multipliers, and the gamer wins whatever value their picked symbol concealed.

3. Pachinko

- **The Setup:** A massive Pachinko wall filled with pegs.
- **The Mechanics:** The host drops a puck from the top of the board. The puck bounces randomly down the pegs up until it lands in among the multiplier slots at the bottom. If the puck lands in a "Double" slot, all multipliers on the board double, and the puck is dropped once again.

4. Crazy Time

- **The Setup:** The host opens a red door leading to a surreal, virtual world behind the wall featuring an enormous, 64-segment wheel.

- **The Mechanics:** Players choose one of 3 flappers (Blue, Green, or Yellow). The wheel is spun, and whatever multiplier the selected flapper points to is awarded. Like Pachinko, landing on "Double" or "Triple" increases all the multipliers on the wheel for a re-spin, as much as an optimum cap of 20,000 x.
