

A smile makeover at Whites Dental Marble Arch typically combines several cosmetic treatments, such as veneers, whitening and composite bonding, tailored to each patient's specific goals. Dr Deepak, the practice's aesthetic dentist and King's College London graduate, has built a reputation specifically around smile makeovers, drawing on award recognised expertise in composite bonding and veneers. The process usually begins with a free video consultation, allowing patients to discuss their goals and receive an initial recommendation before booking an in person appointment for a detailed assessment.
