The Secret Sauce: The Top Slot

Before every spin of the primary wheel, a two-reel **Top Slot** spins simultaneously above the main video game view.

- Reel 1 shows one of the betting segments (a number or a perk video game).
- Reel 2 displays a multiplier (ranging from 2x approximately 50x).

If the horizontal reels align to form a match between the bet section and the multiplier, that multiplier is applied to that particular segment for the upcoming spin. If the wheel arrive on that segment and triggers a win (or a bonus round), all payouts or reward multipliers are immediately increased by that worth. This is where Crazy Time truly lives up to its name, permitting astronomical payments on even the smallest bets.

Dive Into the Four Crazy Time Bonus Rounds

The primary reason players flock to Crazy Time is the 4 interactive perk games. When the wheel stops on a reward section, players who positioned a bet on that section are transferred from the primary studio into a stunning augmented-reality mini-game.

1. Coin Flip

- **Gameplay:** A basic heads-or-tails game. The host presses a button to flip a coin that has a red side and a blue side. Each side is appointed a random multiplier before the flip. When the timer runs out, all players see what was behind their picked target.

3. Pachinko

- **Frequency:** 2 sections on the wheel
- **Gameplay:** Inspired by the conventional Japanese arcade game, Pachinko features an enormous wall filled with physical pegs. The host drops a radiant puck from the top, and it bounces randomly down the board till it lands in one of the multiplier slots at the bottom.
- **Unique Feature:** If the puck lands in a "**DOUBLE**" slot, all multipliers at the bottom of the wall double, and the host drops the puck once again, intensifying the potential wins rapidly.

4. Crazy Time

Much like Pachinko, this wheel consists of **"DOUBLE"** and **"TRIPLE"** sectors, which can press the optimal prospective multiplier approximately a staggering 20,000 x!
