- **Reel 2** screens a multiplier worth (ranging from 2x approximately 50x).

If the bet area and the multiplier align horizontally on the Top Slot, that multiplier is used to the segment for that spin. If the wheel arrive at that segment, all payments or bonus round multipliers are enhanced accordingly. This mechanic is where the game attains its most explosive win potential.

The real magic of Crazy Time depends on its four bonus offer rounds. While gamers can win good payouts on the base game numbers, the bonus offer rounds use immersive gameplay and the possibility to land huge multipliers.

1. Coin Flip

The easiest of the 4 benefit rounds. The host approaches a digital flipper with a coin that has a Red side and a Blue side.

- Before the flip, random multipliers are appointed to both sides of the coin.
- The host turns the coin, and whichever side lands face up determines the gamer's multiplier prize.

2. Money Hunt

This benefit round transitions players to a huge screen including a shooting gallery filled with 108 random multipliers.

- The multipliers are concealed behind numerous symbols (such as a cactus, target, or constable's badge).
- Players utilize an on-screen cannon to take aim and shoot at their selected symbol before the timer goes out.
- When time expires, all cannons fire, exposing the hidden multipliers for each player.

3. Pachinko

Motivated by the conventional Japanese arcade video game, Pachinko features a large wall filled with physical pegs.

- The host drops a puck from the top of the wall.
- The puck bounces randomly down through the pegs before landing in among the slots at the bottom, each containing a multiplier.

- If the puck lands in a **"DOUBLE"** slot, all multipliers on the board double, and the puck is dropped again till a multiplier is won (as much as a huge cap).

4. Crazy Time

The crown gem of the video game. When activated, the host opens a red door resulting in a surreal, colorful virtual world including a colossal 64-segment wheel.

- Gamers select among three flippers: **Green, Blue, or Yellow**.
- The host spins the huge wheel.
- When the wheel stops, the sector shown by the gamer's picked flipper awards the prize.
- Similar to Pachinko, landing on **"DOUBLE"** or **"TRIPLE"** increases all multipliers on the wheel, enabling for re-spins up to a shocking 20,000 x or 25,000 x optimum win limit.
