Valve benefits active players by approving case drops.

- **Active vs. Rare Pools:** Valve turns cases. "Active Duty" cases drop often after matches, while older cases transfer to the "Rare/Discontinued Drop Pool," where they drop at an extremely low rate (approximated around 1% per drop).

2. Steam Community Market

For specific cases that are no longer in the active drop pool, gamers turn to the Steam Community [Case Skin Market](#). Prices vary based upon supply and need.

Numerous traders use trustworthy third-party sites to buy and sell cases utilizing real-world fiat currency or cryptocurrencies, typically bypassing the Steam Wallet funds restriction.
