What is Big Bass Crash?

At its core, **Big Bass Crash** is a multiplayer-style social game where players put bets and view a multiplier increase in real-time. The objective is simple yet stressful: squander before the action abruptly ends (the "crash").

In this particular model, the standard rocket or jet graph seen in other crash video games is replaced by an angler attracting his catch. As the angler pulls harder, the net gets heavier, and the multiplier climbs up. If he successfully hauls in the huge catch, the multiplier reaches new heights; if the line snaps, the round ends, and active bets are lost.
