What is Avia Masters?

Avia Masters is an online multiplayer crash game centered around an air travel style. Unlike conventional slots where players spin reels and await predefined symbol combinations, crash games are developed around a rising multiplier curve.

In Avia Masters, the core objective is basic: players put a wager on a flight, view an airplane remove, and attempt to squander their earnings before the airplane inevitably crashes or flies away. The longer the aircraft remains in the air, the higher the multiplier climbs. Nevertheless, the catch is that the flight can end at any absolute second, wiping out any uncollected bets.

This dynamic develops a continuous mental tug-of-war between greed and caution-- do gamers cash out early for a modest win, or hang on for the possibility at a huge payout?

- 2. Departure and Ascent:** Once the wagering window closes, the aircraft launches. As it rises, the multiplier starts at 1.00 x and increases tremendously.
- 3. The Flight Path:** Depending on the specific design of the game, aspects like fuel, wind, or range might be shown on screen, though the multiplier stays the primary focus.
- 4. The Cash Out:** Players must hit the "Cash Out" button before the round ends. If successful, the initial bet is increased by the precise figure displayed on the screen at the moment of the cash-out.

5. **The Crash:** At a totally random point figured out by the RNG, the plane crashes, blows up, or disappears off-screen. Any player who has not squandered by this point loses their stake for that round.
