What is the Aviator Game?

At its core, Aviator is a social multiplayer casino game featuring an increasing curve that can crash at any time. Unlike slots where the result is figured out by a random number generator (RNG) spinning reels behind a graphic user interface, Aviator presents an uncomplicated visual: a red airplane removes, and as it climbs up, a multiplier coefficient increases.

The objective is deceptively basic: place a bet, watch the aircraft fly, and money out before the airplane flies away. If a gamer stops working to cash out before the airplane vanishes from the screen, their bet is lost.
